

TENEO
CONNECTING SOLUTIONS

GLOBAL PARTNER

DELIVERING INTERCONNECT SOLUTIONS

**CABLE HARNESSES
CONNECTORS
DEVICES**

CONNECTING SOLUTIONS DEVELOPMENT & PRODUCTION

WE HAVE SOLUTION FOR YOUR PROJECTS

TENEO has 20 years of experience in the design, construction, production and installation of complex units. It is always our goal to take care of the complete project solution.

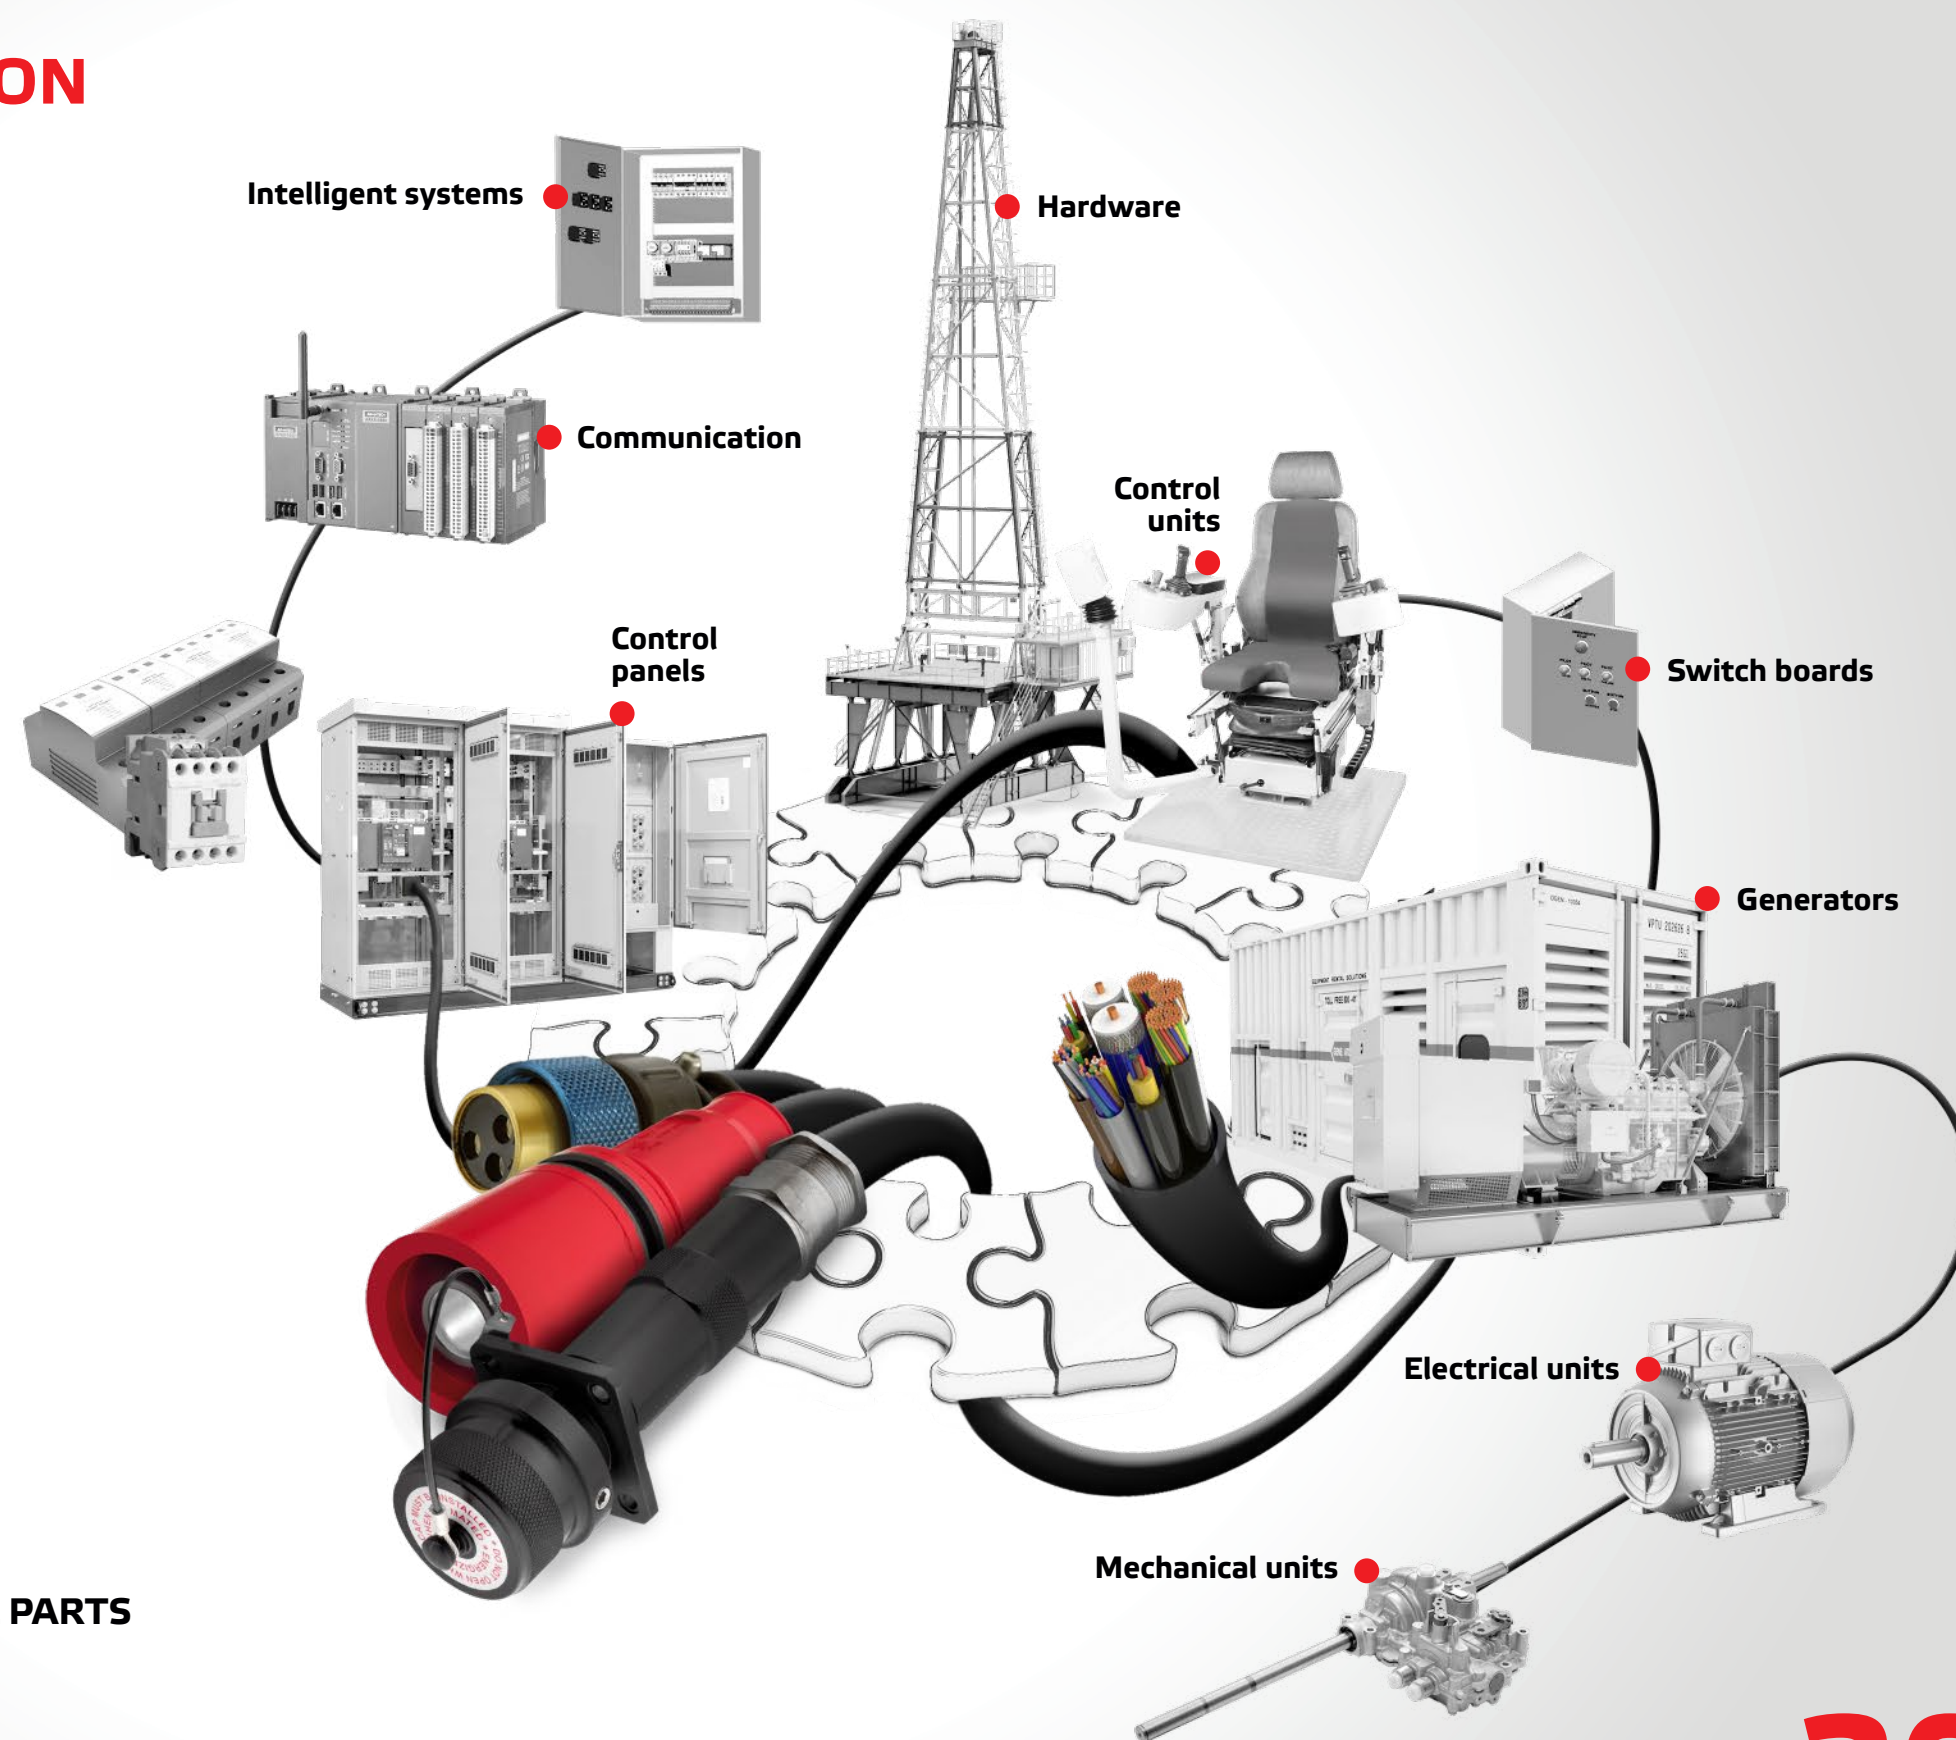

TENEO has sufficient development and manufacturing resources to design and to produce mechanical and electrical components. Each part is a subject to very strict inspection and testing so we deliver a flawless product.

Engineering Prototyping Production Instalation Warranty

**RESEARCH, DEVELOPMENT, TESTS
PRODUCTION OF MECHANICAL AND ELECTRICAL PARTS
INSTALATION ALL OVER THE WORLD**

... BUILDING ORGANISM PARTS **THAT FITS WELL**

20
YEARS EXPERIENCE

CONNECTING SOLUTIONS FOR INDUSTRIAL APPLICATIONS

CONSTRUCTION INDUSTRY

- Power supply and control of the construction cranes
- Mobile construction machinery (lifts, concrete pumps, conveyors)
- Heating and drying units

ENTERTAINMENT INDUSTRY

- Entire power supply and control systems for professional performance stage
- Current transmission from mobile generators to the substation
- Large scale of connecting solutions for lightning technologies

INDUSTRIAL PRODUCTION

- Power supply for hydraulic pumps, loaders, and feeders
- Application of power supply for production lines and operations

TRANSPORT TECHNOLOGY

- The solution for railway charging and dock electrical stations
- The application for port crane power supply and container handlers
- Port chargers

MILITARY TECHNOLOGY

- Power supply for various ground systems (radars, workshop containers, IT, and command control rooms)
- Connecting solutions for various military vehicles and devices
- The connection and control of backup sources and mobile generators

MINING SYSTEMS

- Main power supply from the generator to the distribution station and appliances
- Power, auxiliary, control electrical systems for RIG
- Explosion proof installation for hazardous environment

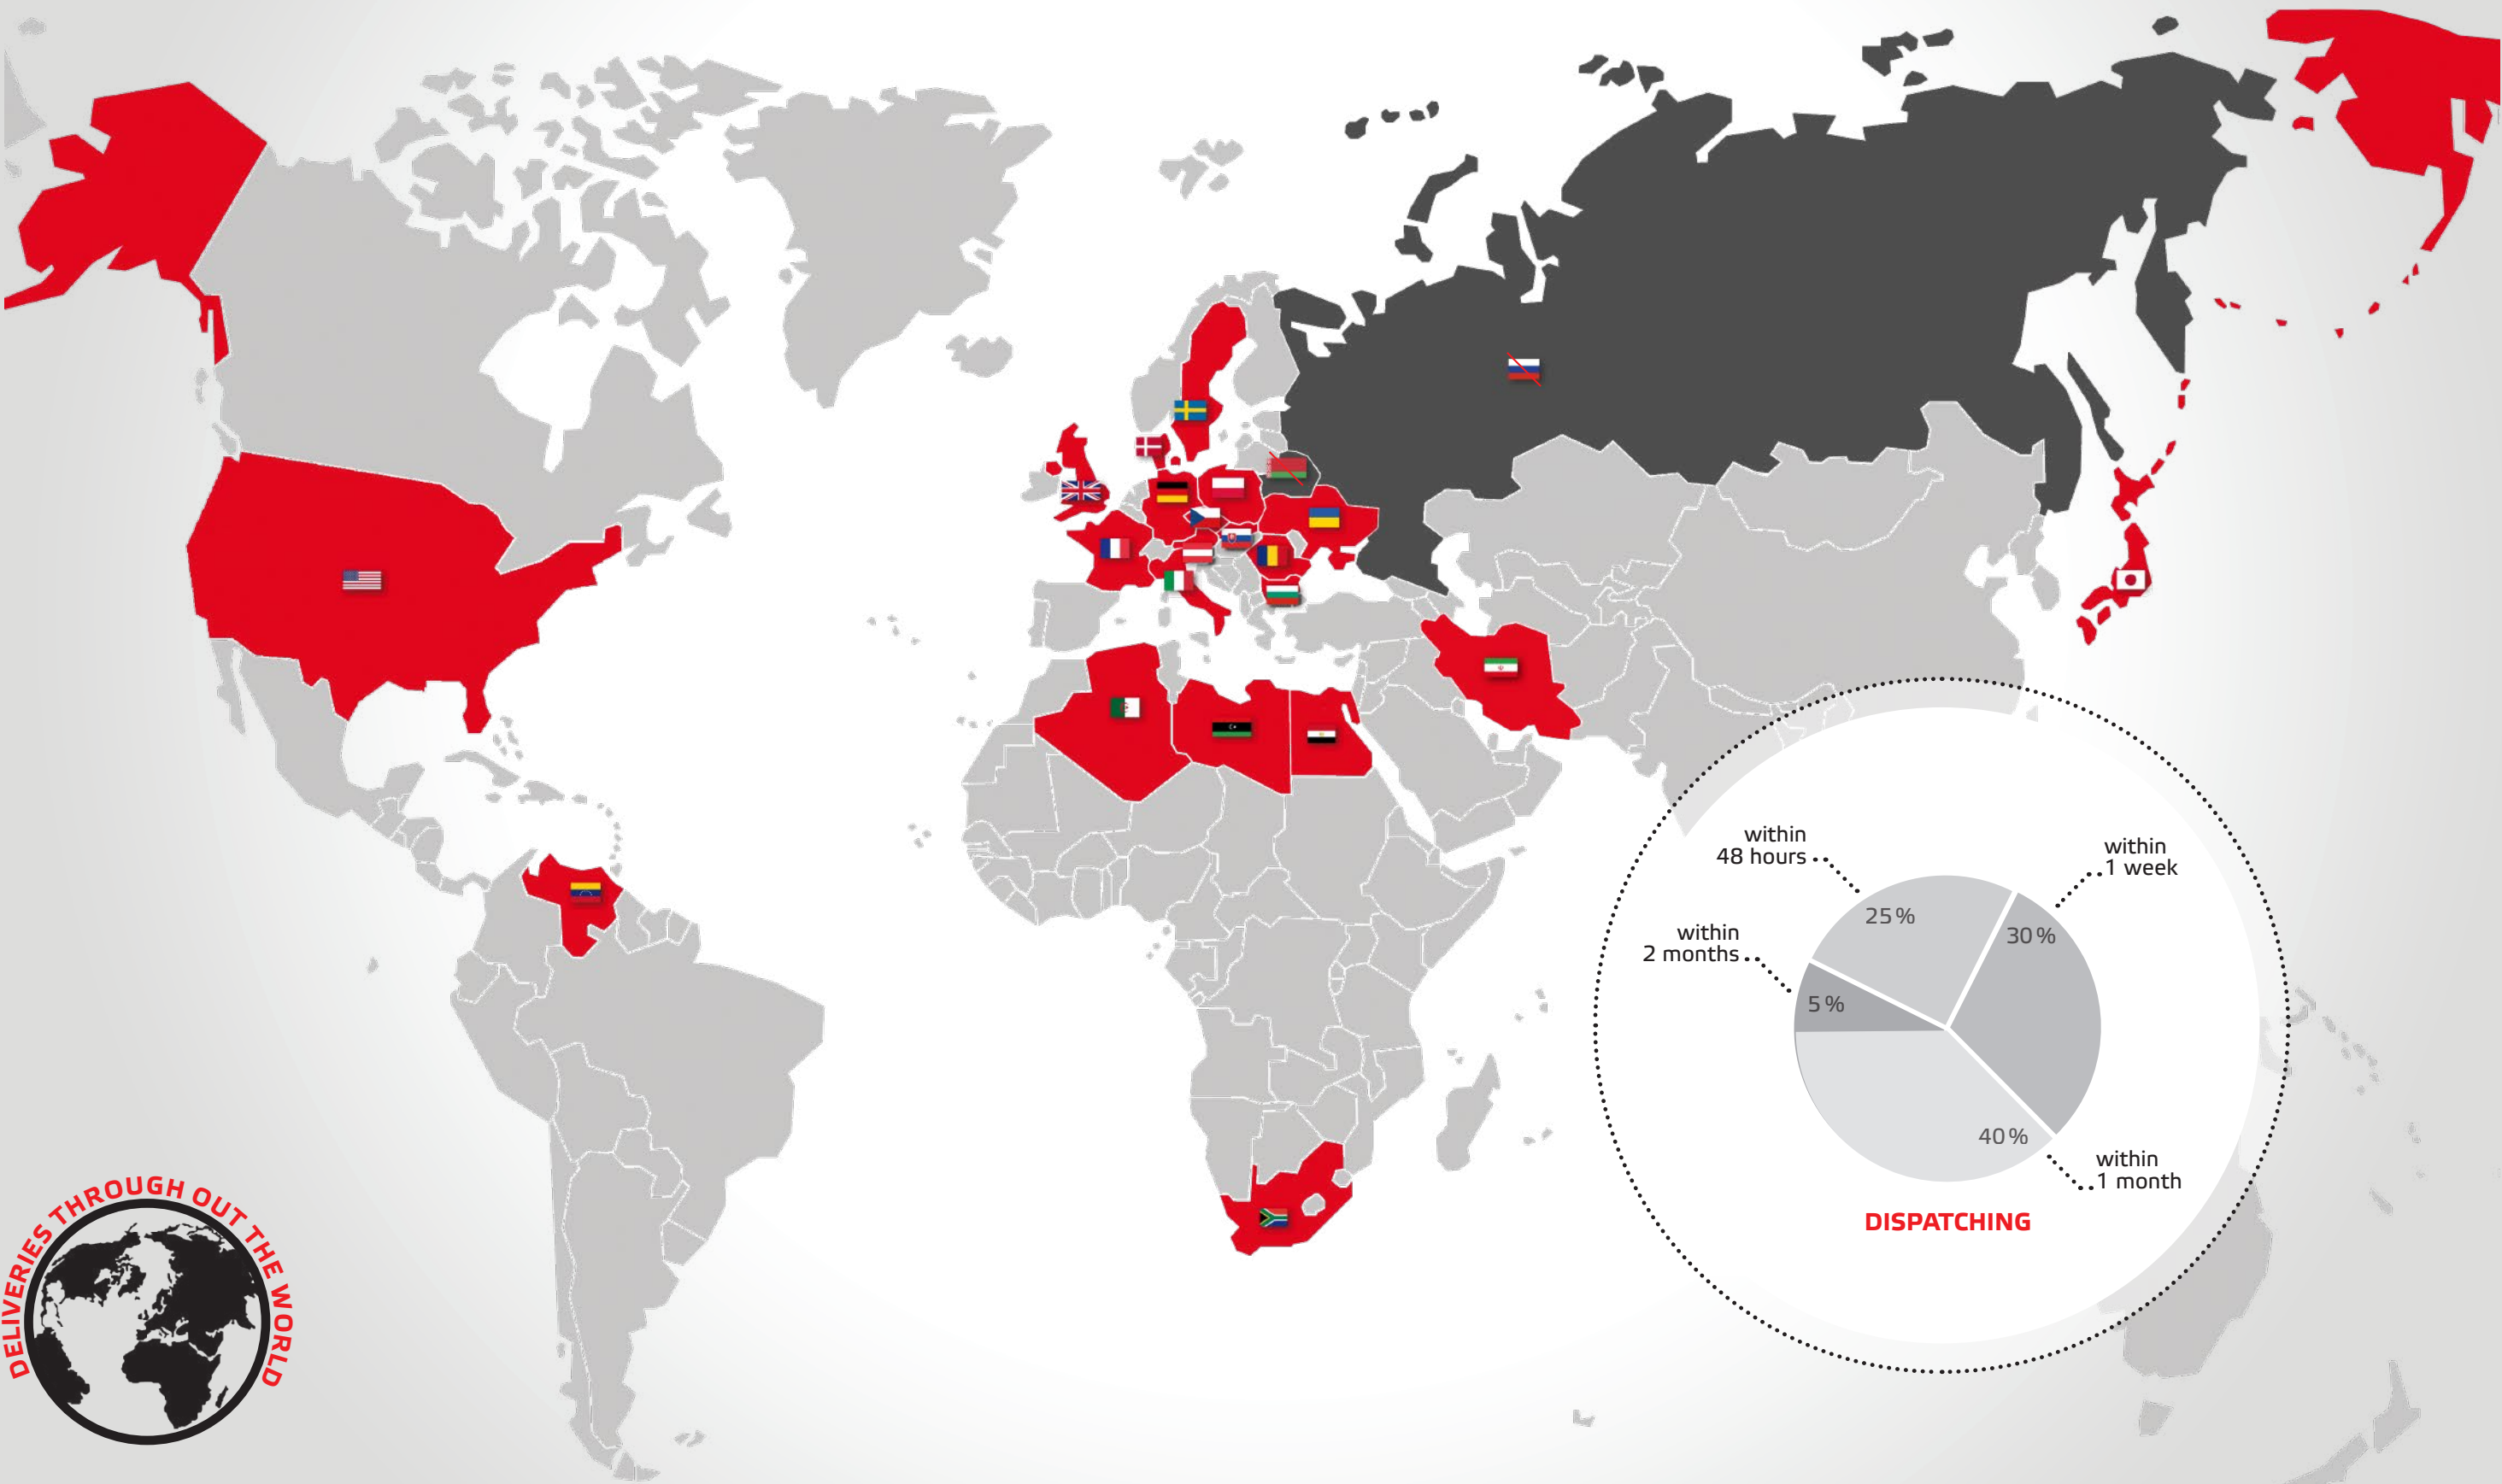

AVIATION INDUSTRY

- Various connectors and harnesses for aircraft engines
- Connecting solutions for ground airport systems

MEDICAL TECHNOLOGY

- Complex solutions for back-up power supply
- Special connectors for various medical devices
- Hazardous environment solutions
